| 1. CAS No.<br>2. EC No.       | % (Weight) | Name   | Classification according to<br>regulation (EC)<br>No.1272/2008(CLP) | Classification (67/548/EEC) |
| 1. 64742-54-7<br>2. 265-157-1 | 100        | Distillates (petroleum),<br>hydrotreated heavy<br>paraffinic | Not classified  | Not classified              |

Ingredient notes

The highly refined mineral oil contains <3% (w/w) DMSO extract, according to IP346.

| SECTION 4 FIRST AID MEASURES         | S  |
|--------------------------------------|--|
| 4.1 Description of first aid measure | S  |
|                                      | If this product comes in contact with eyes :   |
| Eye Contact                          | > Wash out immediately with water  |
| -                                    | > If irritation continues, seek medical attention.   |
|                                      | > Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.                                |
|                                      | If skin or hair contact occurs:  |
| Skin Contact                         | Flush skin and hair with running water (and soap if available).  |
|                                      | Seek medical attention in event of irritation.   |
| Inhalation                           | If fumes, aerosol or combustion products are inhaled remove from contaminated area. Other<br>measures are usually unnecessary. |
|                                      | Immediately give a glass of water.   |

| ➤ First aid is n | ot generally required. If in doubt, contact a Poisons Information Centre or a |
|------------------|---|
| doctor.          |   |

4.2 Most important symptoms and effects, both acute and delayed

See section 11

4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

### SECTION 5 FIRE FIGHTING MEASURES

Ingestion

5.1 Extinguishing media

- ≻ Dry chemicals Powder.
- ≻ Foam.
- > BCF (where regulations permit).
- Carbon dioxide (CO2).
- > Water spray or fog Large fires only.

5.2 Special hazards arising from the substrate or mixture

Fire incompatibility

> Avoid contamination with oxidizing agents i.e. nitrates, oxidizing acids, chlorine acids, chlorine bleaches, pool chlorine etc. as ignition may results.

## 5.3 Advice for firefighters

Fire fighting

> Alert Fire Brigade and tell them location and nature of hazard.

> Wear full body protective clothing with breathing apparatus.

## SECTION 6 ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

### See section 8

6.2 Environmental precautions

#### See section 12

6.3 Methods and material for containment and cleaning up

Minor spills

- ➢ Remove all ignitions sources.
- Clean up all spills immediately.
  - > Avoid breathing vapours and contact with skin and eyes.
  - > Control personal contact with the substance, by using protective equipment.
  - > Contain and absorb spill with sand, earth, inert material or vermiculite.
- ≻Wipe up.
- > Place in a suitable, labelled container for waste disposal.

|                               | Avoid all personal contact, including inhalation.                                       |
|-------------------------------|---|
|                               | ➢ Wear protective clothing when risk of exposure occurs.                                |
|                               | ≻ Use in a well-ventilated area.  |
|                               | Prevent concentration in hollows and sumps.   |
|                               | DO NOT enter confined spaces until atmosphere has been checked.                         |
|                               | Avoid smoking, naked lights or ignition sources.  |
|                               | > Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. |
| Safe Handling                 | ➢ Keep containers securely sealed when not in use. Avoid physical damage to containers. |
|                               | Always wash hands with soap and water after handling.                                   |
|                               | Work clothes should be laundered separately.  |
|                               | Use good occupational work practice.  |
|                               | Observe manufacturer's storage and handling recommendations contained within this SDS   |
|                               | Atmosphere should be regularly checked against established exposure standards to ensure |
|                               | safe working conditions.  |
| Fire and explosion protection | See section 5   |

≻ Metal can or drum

> Packaging as recommended by manufacturer.

> Check all containers are clearly labeled and free from leaks.

| Storage incompatibility | Avoid reaction with oxidizing agents. |
|-------------------------|---------------------------------------|
| 7.3 Specific end use(s) | Not available                         |

SECTION 8 EXPOSURE CONTROLS / PERSONAL PROTECTION

8.1 Control parameters

DERIVED NO EFFECT LEVEL (DNEL) Not available PREDICTED NO EFFECT LEVEL (PNEL) Not available OCCUPATIONAL EXPOSURE LIMITS

(OEL)

| 8.2 Exposure controls            |  |
|----------------------------------|--|
| 8.2.1 Appropriate engineering co | ntrols   |
| 8.2.2 Personal protection        |  |
| Eye and face protection          | Safety glasses with side shields                                 |
|                                  | > Chemical goggles.  |
| Skin protection                  | See Hand protection below  |
| Hands/feet protection            | Wear general protective gloves, e.g. light weight rubber gloves. |
| Body protection                  | See Other protection below                                       |
| Other protection                 | No special equipment needed when handling small quantities.      |
|                                  | OTHERWISE:   |
|                                  | Overalls.  |
|                                  | Barrier cream.   |
|                                  | Eyewash unit.  |
|                                  | Not Available  |

8.2.3. Environmental exposure controls See section 12

SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

| Appearance                           |   |
|--------------------------------------|---|
| Physical state                       | Liquid  |
| Color                                | Colourless                                    |
| Form                                 | Liquid  |
| Odor                                 | Odorless                                      |
| Odour threshold                      | Not applicable                                |
| рН                                   | Not applicable                                |
| Melting point/Pour point             | < -12°C (ASTM D-97)                           |
| Flash point                          | Closed cup: > 170°C                           |
| Evaporation rate                     | <1 (n-butyl acetate = 1)                      |
| Flammability (solid, gas)            | Not applicable                                |
| Flammability limits in air,          | No data                                       |
| lower, % by volume                   |   |
| Flammability limits in air,          | No data                                       |
| upper, % by volume                   |   |
| Vapour pressure                      | <0.013 kPa (<0.1 mm Hg) [room temperature]    |
| Vapour density                       | >1 [Air = 1]                                  |
| Density                              | 0.850 at 15°C                                 |
| Solubility(ies)                      |   |
| Solubility (water)                   | Insoluble                                     |
| Partition coefficient                |   |
| (n-octanol/water)                    | Not available                                 |
| Decomposition temperature            | No Data                                       |
| Auto-ignition temperature            | > 260°C                                       |
| Viscosity, Kinematic at 40°C (104°F) | 0.21 cm²/s to 0.24 cm²/s (21.00 to 24.00 cSt) |
| Explosive properties                 | No Data                                       |
| Oxidising properties                 | No Data                                       |
| 9.2 Other Information                | Not Available                                 |
|                                      |   |

| SECTION 10 STABILITY AND REACTIVI       | TY   |  |  |
|---|--|--|--|
| 10.1 Reactivity                         | Stable.  |  |  |
| 10.2 Chemical stability                 | Under normal conditions of storage and use, hazardous reactions will not occur.          |  |  |
| 10.3 Possibility of hazardous Reactions | Avoid temperatures exceeding the flash point.  |  |  |
| 10.4 Conditions to avoid                | No specific data.  |  |  |
| 10.5 Incompatible materials             | No specific data.  |  |  |
| 10.6 Hazardous decomposition            | Under normal conditions of storage and use, hazardous decomposition products should      |  |  |
| products                                | not be produced.   |  |  |
| SECTION 11 TOXICOLOGICAL INFORM         | ATION  |  |  |
| 11.1 Information on hazard classes a    | 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008            |  |  |
| Classification according to GHS         | 6 (1272/2008/EC, CLP)  |  |  |
| Toxic Dose 1 – LD 50                    | >5000 mg/kg (oral rat)   |  |  |
| Acute toxicity :                        |  |  |  |
| Acute toxicity (Dermal LD50)            | >5000 mg/kg Rat  |  |  |
| Inhalation                              | Not relevant at normal room temperatures. When heated, irritating vapours may be formed. |  |  |
| Ingestion                               | May cause discomfort if swallowed.   |  |  |
| Skin contact                            | No specific health warnings noted.   |  |  |
| Eye contact                             | No specific health warnings noted.   |  |  |
| Health Warnings                         | Observe good chemical hygiene practices.   |  |  |
| Route of entry                          | Ingestion. Skin and/or eye contact.  |  |  |
| Medical Symptoms                        | Diarrhoea. Nausea, vomiting  |  |  |
| 11.2 Endocrine disrupting               | Not listed.  |  |  |
