6.3 Methods and material for containment and cleaning up

Minor spills	 Remove all ignitions sources. Clean up all spills immediately. Avoid breathing vapours and contact with skin and eyes. Control personal contact with the substance, by using protective equipment. Contain and absorb spill with sand, earth, inert material or vermiculite. Wipe up. Place in a suitable, labelled container for waste disposal. 	
6.4 Reference to other sections	For personal protection, see section 8. For waste disposal, see section 13.	

RAGE
Avoid all personal contact, including inhalation.
Wear protective clothing when risk of exposure occurs.
➤ Use in a well-ventilated area.
Prevent concentration in hollows and sumps.
DO NOT enter confined spaces until atmosphere has been checked.
Avoid smoking, naked lights or ignition sources.
> Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke.
➤ Keep containers securely sealed when not in use. Avoid physical damage to containers.
Always wash hands with soap and water after handling.
Work clothes should be laundered separately.
Use good occupational work practice.
